AICHE OFFICERS AND DIRECTORS, 1970

Officers elected for year 1970

President
A. L. Conn

Vice-President
J. J. Martin

Treasurer
T. A. Burtis

Secretary
F. J. Van Antwerpen

Directors

E. L. Ekholm
W. B. Howard
R. R. Hughes

L. W. Leggett, Jr.
J. B. Martin*
J. Y. Oldshue

R. C. Reid
T. W. Tomkowit*
J. W. Westwater*

Theodore Weaver*
James Wei
R. E. White

*Term expires December 31, 1970

Directors elected to serve through December 31, 1972

OFFICERS AND DIRECTORS ELECTED 1970 FOR 1971

| President | Votes | Secretary | Directors |
|----------------------|--------|--------------------------|-----------|
| J. J. Martin..... | 12,919 | F. J. Van Antwerpen..... | 12,694 |
| | | C. H. Chilton | 7,239 |
| | | K. E. Coulter..... | 5,953 |
| | | R. B. Filbert..... | 4,504 |
| | | W. H. Corcoran..... | 4,477 |
| Vice President | | Treasurer | |
| T. W. Tomkowit | 6,835 | T. A. Burtis..... | 12,679 |

The total 1971 slate in addition to the newly elected officers and directors listed, included: R. B. Beckmann, G. Burnet, Jr., L. K. Cecil, C. S. Cronan, R. G. Griskey, I. Leibson, R. H. McCormick, H. A. McGee, Jr., C. J. Major, E. O. Ohsol and C. B. Sutton

The Commonwealth Oil refinery-chemical complex represents the largest and most diversified petrochemical production center in the Caribbean.

SUBJECT INDEX

A

- Absorption
Thesis Index Jan. 95
- Accidents
transportation, system for report-
ing of Apr. 71-73
- Acetylene
in the Caribbean Basin Sept. 15-25
removal in ethylene plants Dec. 53-58
- Adhesive joint, effect of water on Aug. 31-37
- Adsorption
Thesis Index Jan. 95
- Agglomeration
improving powders by Jan. 31-35
- Air cooled overhead condenser,
controversy surrounding Apr. 78-84
- Air incineration to remove organic
capers from air Dec. 74-79
- AIR POLLUTION
air quality act, progress and
problems Mar. 23-25
and the auto industry Mar. 26-28
reduction of in kraft
pulp industry Mar. 73-80
regulations Nov. 49-55
scale-up of a SO₂ control process Jan. 61-65
solvent pollution control,
process for Dec. 74-79
techniques and equipment for
control of Nov. 31-40
- AIR QUALITY ACT
and the automobile industry Mar. 26-28
progress and problems Mar. 23-25
- Airborne vibrations in pumping
systems May 55-57
- Alumina production in the
Caribbean Basin Sept. 15-25
- AIChE
Awards
Food and Bio-Engineering
Award Jan. 12, Nov. 89
Founders Award, 1970 Nov. 86
Half Century Service Award Nov. 87
Institute Lecturer Award Nov. 88
Professional Progress Award Nov. 88
regional competition won by
Manhattan College student June 114
scholarship winners Apr. 97
- Robert E. Wilson Award
nominations sought Jan. 90
- Robert E. Wilson Award in
Nuclear Chemical Engineering Nov. 88
- Books Received Feb. 8,
Mar. 10, May 8, June 8, July 10, Aug. 10,
Sept. 11, Oct. 4, Nov. 12
- Candidates Jan. 66,
Feb. 104, Mar. 109, Apr. 122
nominated for 1971 AIChE
offices Aug. 61-65, Oct. 82
- Constitution changes approved
by members Apr. 7
employment assistance of
new Environmental Division
being established May 39
- established Conference in
Catalysis Program Apr. 16
financial report, 1969 June 7
- Future Meetings Jan. 121,
Feb. 78, Mar. 110, Apr. 113, May 109,
June 106, July 103, Aug. 85, Sept. 109,
Oct. 90, Nov. 93, Dec. 104
- Local Sections Jan. 110,
Feb. 70, Mar. 90, Apr. 86, May 96, June 94,
July 98, Aug. 92, Oct. 76, Nov. 80, Dec. 98
- life insurance, new limited enrollment
enrollment for group life for Sept. 26
- Meetings
First Pacific Engineering Congress,
Washington, D.C. Dec. 23
- National Committees and Divisions
Meetings, New York,
pictures Aug. 23-24
- 6th AIChE Petrochemical and
Refining Exposition, Houston

Annual Meeting ('69) finds educators hard at work. Here are Chemical Engineering Department Heads from various colleges and universities discussing mutual problems.

- Deep aeration tanks, advantages of Nov. 73-78
Desalination Thesis Index Jan. 96
- DESIGN**
air cooled overhead condensers controversy about Apr. 78-84
of air pollution control systems calculations for drying columns concurrent liquid-gas pipeline contactors July 60-67
of conveyor equipment June 35-36
of distillation trays and packings Jan. 41-50
of distillation column packings Mar. 39-44
of hoppers with vibratory feeders June 44-49
hydrotreating equipment specifications Sept. 33-37
and the investment dollar Aug. 11-16
of multiple downcomer trays schemes for phthalic anhydride distillation Mar. 62-65
minimizing plant construction costs Aug. 17-22
improving plant reliability through pressure vessels Dec. 29-33
of primary furnace reformer catalyst tubes July 68-73
of process for removing solvent pollution from air Dec. 74-79
of pumping systems May 43-51
of pumping systems to reduce noise May 55-57
reformer module concept for reliability in process plants Dec. 42-44
of rotary screw type driers Mar. 73-74
safety in pressure vessels June 56-58
of waste water control facilities in a petrochemical plant Nov. 63-66
Deterioration of primary reformer furnace catalyst tubes July 68-73
- Diffusion**
and conduction July 86-90
Thesis Index Jan. 96
Dilution of radioactive wastes Feb. 45-69
Disadvantaged student, helped by AICHE New Jersey Local Section program Oct. 18-19
- Dispersion**
of radioactive wastes Feb. 45-50
Thesis Index Jan. 96
- DISTILLATION COLUMNS**
boiling points and vapor pressures determination of Mar. 56-61
cost optimization of Jan. 41-50
latent heats of vaporization, estimation of in Mar. 56-61
multiple downcomer trays for relative volatilities of ideal mixtures at given temperature, estimation of Mar. 56-61
selecting the proper packing Mar. 39-44
sizing of Mar. 56-61
sizing relief areas for Sept. 34-38
- Downtime**
analysis of for process units Dec. 29-33
causes of Dec. 42-44
- Draft**
effect of new rulings on engineering community Aug. 93
and the graduate student Feb. 22-26
- Dual-Degree Program** initiated at engineering schools Oct. 17
- Dyeing processes**, complexity and problems of Apr. 67-60
- E**
- ECONOMICS**
of chlor alkalis in the Caribbean Basin Sept. 15-25
of packings and trays for distillation columns Mar. 45-49
of project planning and plant optimization June 37-43
of processes for removing organic vapor concentrations from air Dec. 74-79
and R&D budgets Jan. 13-17
Thesis Index Jan. 96
- Economy** effect on engineer employment Mar. 35
- EDUCATION**
AICHE New Jersey Local Section program helps disadvantaged student Oct. 18-19
AICHE New York Section aids disadvantaged youths through Joint Urban Manpower Program Oct. 21
on campus disruptions Sept. 81
tutorial cassettes produced by ISA Oct. 81
of chemical engineers in AEC Conference in Catalysis Program established by AICHE Apr. 16
applying dual ladder concept to the schools Dec. 25
dual degree concept initiated Oct. 17
draft and the graduate student Feb. 22-26
effect of recent draft rulings on engineering community Aug. 93
engineering enrollments sag June 27
Richard H. Wilhelm Memorial Professorship established Sept. 12
translations and information to be shared by international groups July 7
- Electrical Energy**
availability of in Puerto Rico Apr. 36
as source of environmental heat Nov. 17-22
- Electricity**
consumption of in U.S. through year 2000 static, as an ignition source inside vessels Sept. 59-61
- Electrochemistry**
Thesis Index Jan. 97
- Electroosmosis**
Thesis Index Jan. 97
- Employee**, effect of confidentiality clause on July 23-46
- EMPLOYMENT**
assistance of AICHE June 29
outlook for hiring engineers Mar. 29-32
hiring trends Aug. 27
job functions of Ch.E. Jan. 31
Pioneering Engineering Program at Union Carbide to acquire black engineers national registry for unemployed engineers Nov. 24
outlook for hiring technicians Mar. 32-33
Energy demand and heat rejection requirements in the U.S. Nov. 17-22
- ENGINEERING**
the changing black scientist Oct. 17-19
college enrollments sag June 27
construction contracts contractor's challenge to rising costs Oct. 22-43
outlook for new grads Sept. 29
and the investment dollar Aug. 11-16
materials, of hydrotreating equipment Sept. 33-37
metrification, what's it all about May 34-35
plans for independent information corporation is rejected Apr. 14
and protective coating systems Aug. 38-39
social role and responsibility roles of theory and experiment in July 86-90
- ENGINEERS**
experience, value of Mar. 35
outlook for hiring of Mar. 29-32
mobility and the confidentiality clause July 23-46
NSPE median salary July 49
national registry for unemployed engineers Nov. 24
Environment new AICHE division being formed May 39
heat rejection requirements in the U.S. Nov. 17-22
changes in, can affect pumping systems May 65-72
- EQUIPMENT**
for air pollution control Mar. 73-80
for air pollution control, characteristics of Nov. 31-40
for batch distillation of phthalic anhydride Mar. 62-65
control and selection of centrifuges Jan. 51-53
deep aeration tanks, advantages of Nov. 73-78
design of rotary screw type driers May 73-74
distillation columns, improving efficiency of Jan. 41-50
for failure analysis Sept. 63-65
fluid bed dryers, versatility of hydrotreating, materials engineering of Sept. 33-37
and the investment dollar Aug. 11-16
jet trays in heat transfer service July 53-59
maintaining reliability of Dec. 29-33
internal maintenance of vessels Oct. 33-37
for plant waste control Nov. 41-48
pressure compaction machinery Jan. 31-35
reformer design Feb. 64-67
importance of selecting proper pump and driving motor for reducing pumping system noise May 65-57
stress corrosion cracking of Oct. 44-47
for titanium dioxide production by plasma processing Oct. 66-71
two-stage mist eliminators for sulfuric acid plants Nov. 67-72
vendors, how reliable? Oct. 29
Ethanol combustion in a vessel Sept. 59-62
Ethylene in the Caribbean Basin Sept. 15-25
- Ethylene Plant**
optimization June 37-43
reliability in Dec. 53-58
Exhaust emission, dispersion of Nov. 31-40
Experiment, role of in engineering July 86-90
Explosion clad titanium/steel plate Oct. 48-52
- Extraction**
Thesis Index Jan. 97
- F**
- Fabrication**
of primary reformer furnace catalyst tubes July 68-73
- Failure**
analysis: a materials engineering tool Sept. 63-65
corrosion, forms of May 65-72
equipment, main causes of Oct. 29
mode and effect analysis Dec. 45-49
Fatigue, equipment failure due to Sept. 63-65
Ferite content materials and corrosion rate Oct. 38-43
Fiber glass, repairs and maintenance with Aug. 52-53
- Fiber Technology**
Thesis Index Jan. 97
- Financial report**, 1969, AICHE June 7
- Fixed bed converters** in phthalic anhydride production Sept. 49-53
- Flammable gases** in phthalic anhydride process, inerting of Sept. 54-58
- Flammable mixtures**, hazards with Sept. 59-62
- Flange**, effect of loads on in pumping systems May 43-51
- Flexibility**, of piping May 43-51
- Flow pattern** of occurrent liquid-gas through horizontal pipes July 60-67
- Solids flow** in bins and moving beds June 31-34
- Flue gas ducts and stacks**, linings for Aug. 48-51
- Fluid bed dryers**, versatility of July 92-93
- Fluid Dynamics**
Thesis Index Jan. 97
- Fluid Flow**
compared to solids flow June 31-34
- Thesis Index** Jan. 97
- Fluid Mechanics**
Thesis Index Jan. 97
- Fluid motion** in rocket vehicles Apr. 61-70
- Fluidization**
Thesis Index Jan. 98
- Fluidized Beds**
phthalic anhydride process Sept. 54-58
in phthalic anhydride production Sept. 49-53
solidification of radioactive wastes Feb. 35-41
- Fluidized solids and inclined conveyors** June 35-36
- Fluoride recovery** from phosphorous production Nov. 56-62
- Food and Bio-Engineering**
Award Jan. 12, Nov. 89
- Forecasting**
techniques in R&D June 15-19
- Founders Award** Nov. 86
- Fractional distillation**, drying liquid hydrocarbons via Aug. 54-60
- Fuels**
determining rate for conversion of liquid rocket propellant into mixed gaseous propellant Apr. 61-70
- Furnaces**
determining strength of refractory castables for tube failure in Dec. 53-58
- G**
- Gas plant equipment**, preventive maintenance of June 60-61
- Government**
and science can cooperate in solving social problems May 27-30
- Graduates**
outlook for new engineers Sept. 29
- Guidelines** for determining R&D funds Jan. 13-17
- Gunning techniques**, for installation of refractory and insulation enclosure systems Aug. 40-42
- H**
- Half Century of Service Award** Nov. 87
- Hazardous materials transportation** Feb. 57-63
- HAZARDS**
in distillation columns Sept. 38-40
electrostatic charging Sept. 41-48
evaluation and control of radioactive effluents Apr. 74-77
with flammable mixtures Sept. 59-62
identification and evaluation of in phthalic anhydride plants Sept. 49-53
of pneumatic transport Sept. 41-48
- Heat exchangers and transfer lines** equipped with water jackets Mar. 66-72
- Heat rejection requirements** of the U.S. Nov. 17-22
- HEAT TRANSFER**
catalyst tubes in primary reformer furnaces July 68-73
occurent liquid-gas pipeline contractors July 60-67
conference on, to be held in Paris experiment and theory, choosing between July 86-90
and jet trays July 53-59
rates in fluid bed dryers July 86-90
in a liquid-propelled rocket Apr. 61-70
- Thesis Index** Jan. 98
- Heavy water**, renewed interest in Hematitic iron, conveying problem June 35-36
- Hopper designs** with vibratory feeders June 44-49
- Hot modulus** of rupture data, used to indicate strength of refractory castables Aug. 43-47
- Hydrocarbon emissions** from U.S. motor author Mar. 26-28
- Hydrochloric Acid**
corrosion rate of titanium in inhibition of corrosion of titanium in Oct. 53-56
- Hydrocrackers**, maximizing on-stream time of Dec. 34-41
- Hydrodynamic Stability**
Thesis Index Jan. 98
- Hydrogen production**, innovation in Dec. 59-64
